paulcbt@outlook.com

Nationality

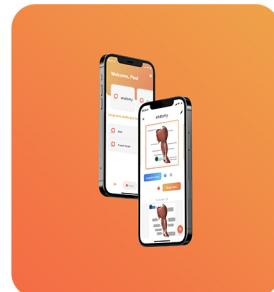

French & German

Career Objectives

Aspiring Software engineer and entrepreneur
Seeking to be able to use my skills in app development

Experience & Projects

- Used Arduino and C++ to create a line following robot for an inter-school competition. First place on one of the two parkours
- Created a small typing-speed game using Flutter (course-de-frappe.web.app) and Portfolio Website
- Sixt Internship for helping with IT communication between French & German team
- Created my own Flashcard app for IOS, Android and web with features including:
 - LaTeX support for maths,,
 - pdf generation,
 - offline mode
 - dark mode
 - In App purchases
 - push Notifications

~100 daily users

The app is available for download : outlearnapp.com

Outside of work

Very good sailing level, passed my Sailing instructor training in 2021

Playing the Piano and the Cello

Like experimenting with new technologies
